Made by Parents. Loved by Parents.

CREATOR BRIEF · 2026

Let's make something real together.

Everything you need to create your first Bambora video, from the deal to the dos and don'ts, in one place.

5% GMV

PAID WEEKLY

Hey! Fatima here from Bambora 🙌

We are having a real moment right now, and I would love for you to be part of it. We are an 8 figure brand, scaling aggressively, and on track to hit 9 figures by the end of this year. We have 150,000 happy parents wearing and loving our baby sling, and we are looking for creators who can show real families what that actually looks like in daily life. 💙

Why this works

Made by Parents, Loved by Parents was never a line we added at the end. It is the reason the product exists, and it is the whole bar for the content you make.

Real homes

Your actual living room, not a studio

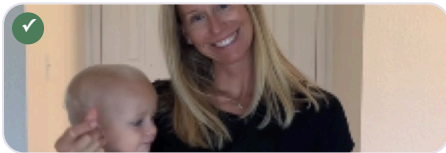

Real mess

Laundry in the background is more convincing than a clean set

Real you

You're parent 150,001, telling the truth about why it works

Everyday, in the front room

Out and about, hands free

Outdoors, in real light

Here's what's in it for you

No affiliate links, no waiting around. Just a straightforward deal that gets better the longer you're with us.

1

5% of GMV, paid weekly

Every sale your content drives comes back to you, every single week, not once a month.

2

Commissions capped at \$100k per submission

That's genuinely serious money for one piece of content, and there's a lot of room underneath that number.

3

A path to retainer plus commission

After your first 30 to 60 days, our top creators move onto a retainer on top of what they're already earning.

4

1:1 coaching calls, whenever you want one

I'm very hands on with this. Book a call with me directly, or message me for feedback any time. We win when you win.

5

A Discord full of weekly inspo

Fresh hooks and ideas every week, so you're never starting from a blank page.

Six little things to get right

Have this open, or a quick read beforehand, whatever works for you. It's not a test, it just means fewer re-films.

Seat tucked securely under baby's bottom

The M shape for babies, snug under the bottom for every size.

One hand on baby, every single frame

Not most of the video. All of it.

Buckle clicked, safety loop in use

Closed properly over the clip, loop threaded through.

Baby close enough to kiss, face visible

High on your chest, face in view the whole time.

Vertical 9:16, key text in the safe zone

1080×1920 or better. Nothing important in the top or bottom strip.

No watermarks, anywhere

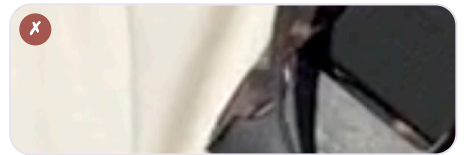

Export clean and send the original file, not a re-download.

Booty not tucked into seat

Legs cutting off

Buckle off the clip

Keep the full checklist handy while you film

From here to your first submission

A simple path, and I'm with you at every step of it.

- 1 Your sample ships**
Expect it within 1 to 2 weeks. Your first month starts the day it lands, not today.
- 2 Film using the checklist**
Keep it open while you go, or check back after. Whatever fits how you work.
- 3 Submit within your first 30 days**
Through Trybe, same as always.
- 4 Get real feedback from me**
On every single video for your first 30 days. Notes, redos, and the reasoning behind both.
- 5 Move onto retainer if it's earned**
After 30 to 60 days, top performing creators move onto a retainer on top of commission.

Genuinely, message me any time.

About a video, an idea, a shot you're not sure about, or nothing in particular at all. There's a real person at this end, and I would love to hear from you.
